

Dear Parents and Guardians,

Thank you for your registration in Outdoor Adventure Airdrie. We look forward to our upcoming journey together!

We are so excited about the opportunity to connect and play with your kids in nature. We hope to share our passion for sport and physical literacy while having fun and developing confidence, agility, coordination, and navigation skills. Upon arrival participants will be assigned a leader based on age groups and will stay with their assigned leader and group throughout the session as they travel through 3 different activity and learning stations each week.

First session:

Our first session is on **Monday, May 6, 2019** We will be meeting at Nose Creek Regional Park (by the washrooms) at 6:00 pm [Location](#)

Sign in/sign out:

We will have the group coaches waiting for the kids with signs (L1, L2, L3...) on colourful bins with the groups name. Please find your group and parents are expected to check in and sign out the participants upon arrival and departure with the coaches.

Volunteering:

Parents are encouraged to assist and play alongside their children, but attendance is not mandatory. If you are signed up for volunteering, we will have a volunteer sign-up list at the check-in table where you can check which day is your shift. Thanks for your help!

What to wear:

Please dress your children for the weather and come prepared for a change in weather as well. Always have top layer (sweater or rain jacket), as the fall temperature can drop fast. We would like to suggest the following:

What to Bring:

- Water bottle – labelled with name
- Outdoor footwear: athletic shoes with good tread
- A base layer (pants, long sleeve) that can get muddy! Not time for your Sunday best
- Pack or wear –a waterproof or water-resistant jacket (and splash pants are great for younger participants if it is wet.)
- Weather dependent accessories such as hat or gloves.

What if it rains?

Experiencing the outdoor elements is part of our program. If it is raining (and it is not a downpour or lightning), we will still go ahead with the sessions. Bring a rain jacket and dress warm. If the weather turns unsafe for participation, an email will be sent for cancellation.

We are looking forward to our Spring session.

Team O2A
